

Leadership And Creative Expression 2023:

Boundaries, Expansion, Role, Task & Authority

An in-person group relations
conference

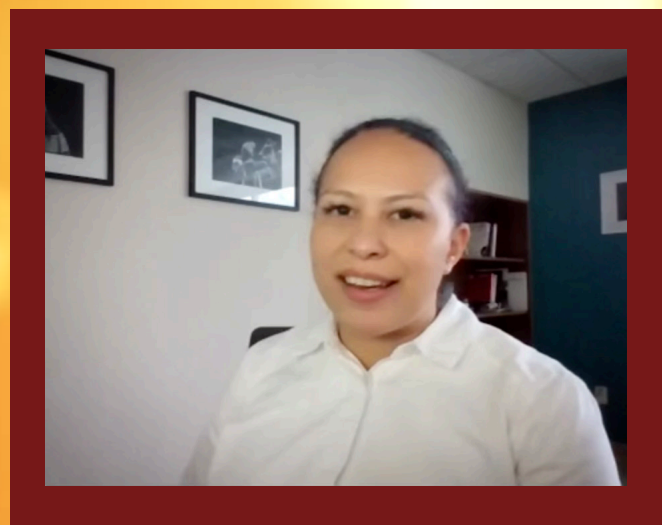

April 21-23

ABOUT

This Latinx-led group relations conference (GRC), directed by Yaro Fong-Olivares, offers students, faculty, staff, and members from the surrounding area a unique opportunity for experiential learning around complex group dynamics, including the hidden dynamics of power and the impact of our multiple, intersecting identities. This year's conference will also explore the "new normal" post-pandemic, our understanding of transitional justice, and who is authorized to lead. Join the expansion and register today!
